

ICS Course on Transitional Continence Management

Park Rotana Hotel
Abu Dhabi, UAE
Friday, 17th April 2020

**CME Accreditation
Under Process**

Target Audience

Urologists
Paediatric Urologists
Urogynecologists
General Practitioners

Nurses
Physiotherapists
Occupational Therapists

Lecture Objectives:

- Describe and explain in a clear and understandable fashion the Anatomy and Physiology of the lower urinary tract of the bowel and pelvic floor.
- Define what “Transitional Care” means and highlight the contrast between Pediatric, Adolescent, and Adult Continence Management.
- Discuss the most recent and globally accepted recommendations and standardizations of urodynamics practice, surgical options, and continence management.
- Assess the level of knowledge acquired by the course attendees with a pre-course and post-course questionnaire.

Message from the late Dr. Mario Patricolo (1963 - 2019)

Dear Friends and Colleagues,

The International Continence Society (ICS) and the ICS-Children and Young Adults Committee (ICS-CYAC) have the privilege to invite you to meet in Abu Dhabi, UAE, in occasion of the: "ICS Course on Transitional Continence Management." Transition Care is synonym of Adolescents' Care. Adolescence is a delicate phase of life for both boys, girls and their relatives, which entails the need for specific expertise from each discipline caring for patients with continence issues, at this stage of their development. Patients, Doctors, Physiotherapists, Occupational Therapists, Nurses and Parents, all need to display both knowledge and readiness, for this phase of bladder and bowel care. The 'philosophy of transition' includes preparing young adults and their relatives to the significant uncertainties and changes, which accompany 'the shift.' The clinical team must encourage and favor decision-making and acceptance of responsibility on the side of the adolescent patient, who no longer is a passive receiver of care from Doctors and Parents, the latter having a progressively smaller role. In different areas of the World and in different Countries, there is discrepancy in the age at which a urological patient should be transitioned from the Pediatric Urologist to the Adult Urologist. Until recently, in our area, Pediatric Doctors could see patients up to 13 years of age. Recently the pediatric age has been raised to 18 years. This highlights and fast-forwards the need to educate those who are not used to deal with adolescents affected by continence issues, with the aim of filling a gap, on "who should do what and how." both on the pediatric and on the adult clinical side.

This Course will provide:

- standardization*
- clarification*
- pathways for smooth and effective transition*
- a 360 degree, approach to all aspects (urological, psychological, environmental, administrative, regulations, etc.).*

We look forward to seeing you all in Abu Dhabi and to experience a productive and useful educational opportunity, as well as enjoy the innumerable attractions which the UAE Capital offers, both on the cultural and touristic stand point.

*With Best Wishes,
Dr. Mario Patricolo
Chairman*

International Continence Society

A truly multidisciplinary society, whose members are Physicians, Nurses, Physiotherapists, Occupational Therapists, Rehabilitation Caregivers; amongst the subspecialties. We have Urogynecologists, Neurourologists, Pediatric and Transitional Urologists, Urotherapists, etc. All events are CME accredited, mostly by EU-ACME or anyway Category 1 CME and ICS Journal Neurourology and Urodynamics has quite high-impact.

There are now over 3260 ICS Members worldwide distributed in 97 countries (43% Europe, 28% Asia, 21% Americas, 7% Oceania, 1% Africa).

In 2017, it was calculated that there was a 140% increase on new ICS Members!

ICS - Children and Young Adult Committee

Ashani Couchman
Interim Chair

Giovanni Mosiello
Co-opted Member

Selcuk Yucel
Committee Member

Kwang Myung Kim
Committee Member

Stuart B Bauer
Co-opted Member

Nelly Faghani
Committee Member

**Rien Johan Marien
Nijman**
Committee Member

**Marcus John
Drake**
Ex Officio

**Jennifer Dart Yin
Sihoe**
Committee Member

Giuseppe Masnata
Committee Member

Israel Franco
Committee Member

Beulah Jebakani
Committee Member

Mario Patricolo
Elected Chairman
1963 - 2019

Becoming an ICS Member

Since 1971 the International Continence Society (ICS) has led multi-disciplinary continence research and education on a worldwide scale through the ICS Annual Meeting and the Neurourology and Urodynamics Journal.

With over 3,000 members ICS is a thriving society of Urologists, Uro-gynaecologists, Physiotherapists, Nurses, Basic Scientists and Researchers with a focus on continence and pelvic floor disorders. We are growing every day and welcome you to join our Society. Join ICS today and enjoy substantial discounts on journal subscription and registration for the ICS Annual Meeting, plus many other great benefits.

Scientific Agenda

TIME	TOPIC	SPEAKER
08:00 - 09:00	Registration and Pre-course Questionnaire	
09:00 - 09:30	Opening Remarks and Mario Patricolo Memories	Francesco Cappellano
SESSION 1 9:30 - 10:45		
09:30 - 10:00	Bowel and Pelvic Floor Anatomy and Physiology of Voiding and Defecation	Francesco Cappellano
10:00 - 10:30	Congenital Anomalies and Incontinence: Bladder Exstrophy, Urogenital Sinus, Ectopic Ureter	Rien Nijman
10:30 - 10:45	Questions and Answers	
10:45 - 11:00	COFFEE BREAK	
SESSION 2 11:00 - 12:00		
11:00 - 11:30	Spina Bifida and Neuropathic Bladder, Posterior Urethral Valves, and Cloaca	Giovanni Mosiello
11:30 - 12:00	Urodynamics: Standards and Good Practice	Rien Nijman
12:00 - 12:30	Coloplast Symposium	
12:30 - 13:30	LUNCH BREAK AND FRIDAY PRAYERS	
SESSION 3 13:30 - 15:45		
13:30 - 13:45	Neuropathic Bowel	Giovanni Mosiello
13:45 - 14:00	Standardisations of Terminology-LUTS	Rien Nijman
14:00 - 14:15	Urinary Incontinence : First Line Treatment	Giovanni Mosiello
14:15 - 14:30	Botulinum Toxin and Sacral Neuromodulation	Francesco Cappellano
14:30 - 15:00	Surgery for Continence	Rien Nijman
15:00 - 15:15	How to Treat Patient with Special Needs?	Giovanni Mosiello
15:15 - 15:30	Bowel Management	Giovanni Mosiello
15:30 - 15:45	Long Term Care and Transitional Care	Giovanni Mosiello
15:45 - 16:00	Closing Remarks and Post Assessment
